FLAG RULES

The following color flags and/or lights will be obeyed without question:

GREEN: GO, GO, GO! The race has started or restarted.

- **At the start of the race:** you may not pass any cars until you cross the start/finish line; which means you must have your front bumper behind the rear bumper of the car in front of you.
- **On single-file restarts:** as soon as the flag drops, you may pass to the **outside only**, until you cross the start/finish line.

YELLOW: Caution! Slow down and hold your position.

- NO PASSING. We do not race back to the yellow flag.
- Any car going to the pits under yellow will start at the rear of the “longest line”. • Cars will be returned to the positions held upon the completion of the last “green flag” lap.
- Any car involved in any action that results in a yellow flag being thrown may be sent to the rear of the field at the Flagman’s discretion.
- If you are not a lapped car, you may go to the back of the car that is on the lead lap (“the back of the lead lap cars”).
- If a yellow flag is thrown after the leader has taken the white flag, the field will be scored at the checkered.

RED: Emergency! Race has stopped.

- Bring your car to an immediate, controlled, safe stop (on the apron, if possible). • Drivers must remain seat-belted in their cars at all times on track until official permission to exit is given, except in case of fire.
- If a red flag is thrown after the leader has taken the white flag, **the race is finished**.

WHITE: One lap to go! This is your last chance to pass the car in front of you. • The next flag ends the race, regardless of its color.

CHECKERED: You know what this means: the race is over! Exit track safely and observe pit speed rule.

BLACK: Exit the track immediately!

- Blatant disregard of the black flag will result in removal of all points and money for the

race program.

- No protesting of the black flag.
- Flagman may display the black flag for you to return to the pits for the remainder of the race OR for a “stop & go”/”pass-thru”; you will hear on RACEceiver which one applies to you.
- **Any rolled flag pointed at a driver** is a warning of improper driving and pending penalty or black flag, if the situation is not corrected.

HAVE FUN. BE SAFE. DRINK WATER. Page 5 of 6

BLACK w/ORANGE DOT: There is a mechanical problem with your racecar.

- Exit the track and see the back wall flagman for a description of the issue, if not known to you.
- Cars that receive a mechanical black flag during a race must be cleared by the back wall flagman or Technical Director before reentering the event.

BLUE w/YELLOW STRIPE: Hold your line! Do **NOT** make any erratic moves, as the leader(s) are coming to put you a lap(s) down.

- **NOTE:** The Race Director may direct you to go high or low at their discretion via RACEceiver.

YELLOW w/RED STRIPES: This is the “RE-DO” flag. Something went wrong with the last start. Line up in your previous starting order and we will start again.
